Three things to revise next

A plan for exam week

HSK 3.0 Level 1: 20 listening questions and 20 reading questions. Original revision guidance.

Seven days before

Confirm your booking, ID requirements, location or online setup, exam version and start time.
Ask your teacher about any remaining gaps.

During the week

Use short recall sessions. Practise with the official HSK 3.0 sample: about 12 minutes listening, 3 minutes to transfer listening answers and 20 minutes reading, plus 5 minutes for personal details. Total: about 40 minutes.

The day before

Prepare your documents and equipment. Check travel time or your connection. Avoid trying to learn everything at once.

After the result

If you need further preparation, review the score with your teacher. Eligible enrolled learners can use the academy's pass-support promise; see the current terms.
