HSK 3.0 Level 1 examination syllabus, published November 2025, marked for implementation July 2026.

Vocabulary: 300 entries, printed pages 77-84. Recognition characters: 246, printed pages 353-354. Grammar: printed pages 383-385. These are the examination requirements used for this pack.

The 2021 proficiency standard and the old HSK 1 exam have different lists. This pack follows the November 2025 examination syllabus linked by Chinese Testing International.

Official source: <https://www.chinesetest.cn/syllabus>

Checked 9 September 2026. Exam rollout and availability depend on your test centre. Confirm HSK 3.0 Level 1 when registering. The academy is an independent preparation provider.

Pinyin follows the official entries, including numbered homograph senses with the numbering removed for study. Tone changes in natural speech are taught in class. The list contains both words and useful fixed expressions.
